Glen Hodgson - Our Man Again

Incumbent R. Glen Hodgson was returned for his third term at Queen's Park when he swept this riding of Victoria-Haliburton on election day. In doing so he registered 10,439 votes, a plurality of 2,124 over his closest rival, Liberal candidate Mayor John Eakins of Lindsay.

It was the second provincial election defeat for John Eakins. In 1967, he lost by just over 2,000 votes.

The New Democratic Party candidate Art Field polled only 2,612 votes compared to the 3,384 polled by the NDP's Mervyn Everall, in 1967.

Despite a strong showing by the Liberals throughout the

the PC strong points lay in the northern part of the riding in the candidate's native Haliburton County. Other areas holding firmly for the Conservatives included Bobcaygeon, where three polls gave Hodgson a total of 504 votes to Eakins' 201 and Field's 41, and sections of Fenelon Township.

The Liberals had their strength in the Emily Township district of Downeyville, which gave Mr. Eakins an overwhelming 147 votes to Mr. Hodgson's 20 and Mr. Field's 8. The predominantly Roman Catholic community showed almost equally strong Liberal leanings during the last provincial election.

In Lindsay, Mr. Eakins won by an over-all 174 vote margin, a much smaller margin than was generally anticipated. Town figures gave Mr. Eakins 2,931; Mr. Field 676 and Mr. Hodgson 2,757.

An estimated 28,500 persons were eligible to cast ballots in this riding at 132 polls. A total of 21,366 votes were actually cast — a turnout of about 75 per cent.

This compared with about 71 per cent in 1967, and 68 per cent in 1963.

ROTARY CLUB DONATES \$400 TO MINOR HOCKEY

At a Directors Meeting on Monday night of the Minden Rotary Club, a motion was passed to donate \$400 to the Minden Minor Hockey Association.

The Rotary Club has been an ardent supporter of Hockey in Minden and has helped the Minor Hockey Association financially for many years.

PLAN TO ATTEND THE THE FIGURE EIGHT HOP

The Minden Figure Skating Club will hold a fund raising dance at the Kinsmen Centre on Saturday, November 27th. They are calling this action packed night the "Figure Eight Hop". Tickets can be obtained from any member of the Skating Club for \$5.00 a couple.

The Club is bringing in some top dance music and will have bar facilities.

TEACHERS DISCUSS GUIDELINES

On Wednesday, October 13th all the teachers of primary and junior levels from the Elementary Schools in Haliburton County met at the Haliburton High School to discuss the Ont. Department of Education guidelines. The meeting started at 4 p.m. with general discussion, after which subject groups were formed, with a chairman appointed each group, so that teachers could talk about their own particular subject area. There was a break for supper at 5:30 p.m., after which the group discussions continued until approximately 7 p.m.

Similar meetings are held throughout the province, and these Cyclical Reviews invite teachers not only to discuss and comment on the Ontario Department of Education guidelines and their purpose, but to make suggestions for their improvement.

On Saturday, November 27th, eight teachers from this County one from each of the discussion groups at Wednesday's meeting will go to Toronto to meet with representative teachers from Victoria County, North York and other groups in Region 8, to put forward the views of the Haliburton teachers and further discuss the guidelines and how they will be implemented in the local situation. The significant point is that the implementation of these guidelines, set out by experts, is flexible and the Ontario Department of Education is not only concerned and interested in the way teachers interpret them in their own particular area, but is ready and willing to consider suggested improvements. Through this exercise it is hoped that the students will benefit from an increasingly better education. That is the aim of the teachers in this County.

HALLOWEEN WILL BE THIS SATURDAY NIGHT OCT. 30th.

The children will shell out Saturday night this year, since the 31st falls on a Sunday.

Motorists are asked to drive with caution, as there will be lots of children out that night.

MINOR HOCKEY ASSOCIATION MET MONDAY

SET 1971-72 BUDGET AT \$5,700 — FOR EIGHT TEAMS

At a meeting on Monday night of this week, managers and coaches gathered with the Minden Minor Hockey Association Executive to draw up a budget of operational expenses and discuss plans for the fast approaching hockey season.

Due to the fact Minden has no arena this year, ice time has been booked in Haliburton and Fenelon Falls, and possibly after Christmas some time will be booked in Kinmount. Renting ice in other communities for some eight or nine teams runs into a phenomenal sum of money.

Minor Hockey in Minden ran

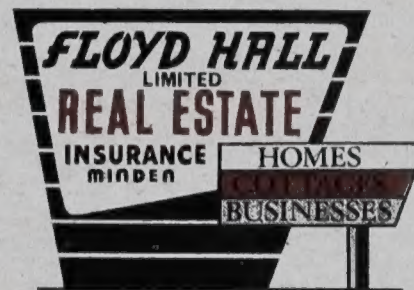

a budget other years in around the two thousand mark. This year with increased costs in other arenas, the budget stands at \$5,700. Eighty per cent of this figure is for ice rental time. The Association will raise some money through registration, booster tickets, tag days, and gate receipts at games, however they will still come up considerably short of the total needed, and will have to look for assistance from the Recreation Committee.

Due to the resignation of Larry Scott, Richard Parisotto was elected President, Don Booth was elected Vice-President and Bob Beene was elected as a Director.

DONATIONS RECEIVED FOR RECREATION CENTRE FUND

OBJECTIVE \$75,000 — Total To Date \$60,359.29

Dora Welch, Minden	\$ 10.00

KUSHOG LAKE

Winterized 3 bedroom cottage, modern kitchen, large living-room, sundeck, on deep partly wooded lot, sand beach, year round access. \$17,500.

MINDEN ACREAGE

121 wooded acres on township road, beaver pond excellent hunting. \$5,900.

election campaign, there was never really any doubt about the outcome once the first few polls had reported. The earliest totals received during the first halfhour after the polls closed gave Mr. Hodgson 168 votes after five polls had been tallied, Mr. Eakins 137 votes, and Mr. Field 20. After 10 polls, the picture was similar, with 420 for Mr. Hodgson, 316 for Mr. Eakins and 108 for Mr. Field.

Final results from the 132 riding polls (123 regular polls and nine advance polls) gave the Liberals 8,315 votes; New Democrats 2,612 and the Progressive Conservatives 10,439.

As in the two previous elections contested by Mr. Hodgson,

HERE AND THERE

with Fenwick Finch

On and off all summer I have had my attention drawn to the clean condition of our main street and the neighbouring areas.

I couldn't agree more — they have been well taken care of and

Hugh Kirkland and his good wife Yvonne deserve every bit of complimenting they get. Consider the number of people who are littering the streets and you'll have some idea of the clean-up problems the Kirklands have.

They tell me also the Kirklands are pretty handy at helping around a house so — what better place to look for odd-job assistance?

A couple of times recently I've run into a small problem with school busses. The buses stop and then the flashing lights come on. Now, is there some reason why these lights don't start flashing before the stop is made? It would seem to me the following motorist is entitled to a little advance warning over and above the stop lights coming on.

Tried to get into Howland Jet. over the Thanksgiving Holiday for a little fishing — the man, Jack Austin, is bankrolling the trip informed me that there was no accommodation of the Holiday as we didn't apply soon enough. Ah well, he's always got an excuse for not taking the trip. I only hope he gets around to it before I'm too old to enjoy the trip.

I see the PR job for William Davis was more than successful. Towards the end I was getting a little worried, the "Man in the street" interviews about "just plain Bill" were starting to get to me, I began to get the feeling we were being touted onto the "second coming" and that "plain ole Bill" was being cast in the role of the "Messiah".

He's in there strongly, now, he's got the chance to live up to his image.

Was talking to Maurice Windsor from Carnarvon the other night and he was telling me he missed the odd story I was putting in — so, Maurice, here's a story for you.

"I must insist on knowing one thing" said the bridegroom as he climbed into bed on his honeymoon night. "am I the first one to sleep with you?" "You will be," she replied, "if you doze off."

There is always a lot of argument about the wearing of seat belts in cars.

Here's what the Accident Prevention Department of the Ontario Hydro has to say about them.

"A seat belt must be worn snug." — "One of the strongest parts of the body is the hip structure, natural protection for some of the body's vital organs. Seat belts are designed to ride low and snug on the hips. The lower edge of the belt should run along the line where legs and torso joint."

So, there you have it — worn correctly the seat belt is a saver — not worn correctly it could be a killer.

Well, that takes care of another week. The country is still beautiful — drive carefully so you'll be around to enjoy it.

The young lad in the red car with the noisy exhausts that is rearing around town may soon run out his string — it's to be hoped he doesn't take some innocent person with him.

Fenwick

REPORT FROM THE HEALTH UNIT IN THIS DISTRICT

The following is in part the September report from the Haliburton, Kawartha, Pine Ridge District Health Unit.

As has been experienced to a degree in the past, time involvement with private sewerage decreases as the colder weather closes in. It is noted that for September there is a decrease of approximately 100 inspections as compared with the August summary.

September proved to be a busy month in regards to meetings with Councils, and doing sanitary surveys relative to municipal sewerage projects and stream pollution. Brook Creek, Hamilton Township, was travelled to locate any pollution discharges thereto, and to take water samples throughout from the headwaters to the lake. Because of pollution found in the Trent River, in an area being used for swim instruction, a municipal sewer was dyed to determine if the sewer in the core-wall was leaking into the canal. Since it was, swimming was prohibited, and the Ontario Water Resources Commission have submitted recommendations for correction.

Court was attended in regard to Bonnie View Inn. The case was closed since the Inn had gone into Receivership.

Staff cooperated with the project engineers for the race track under construction in Cavan Township. This was in regards to sewage disposal, sanitary facilities, and food service.

The Department of Fisheries have cooperated with the Unit in advising of their earlier lamprey control in Northumberland and Durham Counties, and their lampricide check at present being done in October. The Department recognizes that, in colouring of the streams, some users of the water may be alarmed, and assume water pollution and possible hazard to stock.

CHRISTMAS SEALS

Give a gift of health this Christmas sason — the gift of health and happiness. You can do this through your generous use of christmas seals on all your holiday mail. Christmas seals are not only a bright decoration-they back the year-round work in the fields of respiratory disease and tuberculosis. There's more to do. Give more to Christmas seals through a quick and generous answer to your christmas seal letter.

Please do it today. your tuberculosis and respiratory disease association considers it a matter of life and breath.

Pictured above are two of the behind the scenes people responsible for the success of CBC-TV's flagship information series, Weekend, telecast from 10 to 11 p.m. Sundays. Executive producer Richard Nielsen (left) and senior producer Peter Kappele contribute much of the journalistic expertise and editorial judgement that has made the series, in the words of Knowlton Nash, "the most provocative but responsible program of its type".

GLEN HODGSON M.P.P.
VICTORIA - HALIBURTON

HALIBURTON COUNTY SOCIAL PLANNING COUNCIL

MET RECENTLY IN HALIBURTON

The regular meeting of the

group concerned with the services offered to the citizens of this County was held recently at St. George's Anglican Church, in Haliburton.

Present were: Mr. Frank Ford, Chairman, Mrs. Agnes Appleby, Mr. Ted Campbell, Mr. Norman Cooper, Mr. Douglas Devolin, Mrs. Joan Fennell, Mr. Andrew Hutchison, Mr. R. Lumley, Mrs. Mary Packard, Mr. George Phillips, Mrs. Marion Tallman and Capt. Donald Wheeler.

It was suggested that the meeting be held at the Haliburton Highlands Secondary School and members of the Students' Council be invited to join us. Mr. Campbell is to contact Mr. Rouble, Principal of the school, in this regard.

Due to the fact that he is leaving the Children's Aid Society to accept the position of Executive Director of the Kawartha Youth Programme, Mr. Norman Cooper asked that he be replaced on the Steering Committee. Mr. Ford urged him to remain with us, unless geography stands in his way. Mr. Cooper agreed, for a limited time. In his position with Kawartha Youth, Mr. Cooper will be working with boys' and girls' clubs, sheltered workshop, etc. in the Lindsay area and will continue to be a very valuable member of this group.

The Steering Committee presented a proposed Statement of Purpose to the group and after a few changes were suggested along with several proposed names, it was left with the Steering Committee to send a revised statement to the membership, along with a choice of proposed names, in the hope that these may be formally dealt with at the next regular meet-

ing. Mr. Campbell reported that he understood the Sheltered Workshop for retarded children, located in Tory Hill, was in danger of closing because of lack of funds. Their monthly budget has to be \$400 - \$500 to continue operation. Mr. Campbell, Mr. Cooper and Mrs. Appleby offered to look into possible aid that this group could receive through existing organizations. It was also suggested that once we learned more about the situation this group could approach the press and make public appeal on behalf of the students of the Workshop. Mr. Phillips is to contact the people involved and ask them if they would care to name a committee to meet with Mr. Ted Campbell, Mr. Phillips, Mr. Hutchison and Mrs. Tallman at the Tory Hill United Church, on Wednesday, September 29th.

Due to prior commitments and an increased involvement in the committees of this group, Mrs. Tallman asked to be replaced on the Steering Committee. Subsequent to the meeting, Mr. Ford appointed Mrs. A. Appleby as her replacement.

Mr. Ted Campbell gave a brief outline of the Economic Development Commission for Haliburton County. This commission is interested in the economic, social and civic welfare of the County. There are eight representatives on the commission from all walks of life — an engineer, surveyor, doctor, retired businessman, etc. Mr. Ted Campbell is the Chairman. At this time there is hope that a wood products industry will be started in this County, by a present member of the forestry industry. Also, tourism is a prime concern.

NOTICE

The Haliburton Highlands Property Owners Council will hold its Annual Meeting at 7:30 p.m. on November 4th, 1971 in the Ontario Room of the Parliament Buildings Macdonald Block in Toronto.

IT'S HALLOWE'EN

Shell out, Shell out,
The witches are out
If you don't come out
We'll throw you out.

It's that time of year again,
when all the little people, the

spooks and ghosts are out in full force, in this community, full of excitement for their one big night of the year. This is just great, but the farthest thing from their minds this one night is safety.

Parents can and should do all they can to protect their young goblins by adopting a "see and be seen" policy. Here are some techniques suggested by the Ontario Safety League:

Instead of buying a funny face, make one using make-up: eyebrow pencil, clown white, colored moustache sticks and anything else your imagination suggests. Face paint provides clear vision, whereas the conventional mask with small peep holes restricts vision and can even slip down over the child's eyes.

To help drivers see dark clad youngsters after dark, decorate costumes with reflective iron on, sew on, or self stick tapes. It gives an eerie appearance and shows up brilliantly in driver's headlights.

Parents should accompany their youngest toddlers and impress on the older ones the need to be extra alert when crossing streets.

Drivers should remember that on Hallowe'en there's bound to be some small ghost who will forget to be careful and then his chances depend on you.

SOCIAL PLANNING COUNCIL

Haliburton County now has a Social Planning Council — this organization is concerned with individual communities and people within this County, so that citizens of all ages may help themselves lead full and complete lives. Participation is invited from representatives of all organizations committed to serve the needs of people within the County.

The Council will assess the needs of the community and plan and initiate new community programmes.

It will attempt to provide a liaison group representative of all organizations concerned with the academic, spiritual, social, physical and civic needs and services of the people of the County.

The Council intends to achieve their objectives by regular monthly meetings, publication of a social services directory, hearings of individual people and groups concerned with the betterment of the community, regular press coverage, making representation to government bodies and other relevant action.

It would seem to me that this County has a great need for this Social Planning Council — I hope that this paper can help in some small way to assist this cause.

REMEMBRANCE WEEK NOVEMBER 5TH TO 11TH

The Dominion President of the Royal Canadian Legion has proclaimed 'Remembrance Week' from November 5th to 11th a time when the nation will pause to renew its thanks to veterans and those still remaining in the services and to honour those who gave their lives to insure the freedom we enjoy today.

On Poppy Day, Saturday, November 6th, members of the Haliburton Branch of the Royal Canadian Legion will be joined by the Ladies' Auxiliary, school children of the surrounding districts and other volunteers in an effort to canvass the whole area for the sale of poppies, wreaths, crosses and sprays. Your donations to the Poppy Fund will be of two-fold assistance, first, the local branch purchases these emblems from a firm called 'Vetcraft' whose employees are disabled war veterans who depend on the manufacture of these symbols to earn their livelihood, and secondly by the resale of these emblems by the local branch funds are made available to help veterans of this community and their dependants in times of financial emergencies. All proceeds realized from these sales are deposited in a Trust Account for the sole purpose of providing such assistance.

The Poppy, The Flower of Remembrance. We hope everyone will wear a poppy or display one of the other emblems during Poppy Week. Haliburton Branch 129 hopes to contact everyone within its zone to insure that wreaths, etc. are made available for the decoration of veterans' graves, memorials, cenotaphs, public buildings and business establishments. These may be purchased from canvassers who will be calling on you within the next few days, or will be available for sale at the Legion Hall.

Remembrance Day services will be held in the Haliburton Legion Auditorium on November 11th commencing at 10 a.m. to be followed by the laying of wreaths and the Act of Remembrance at the Cenotaph at 11 a.m.

Everyone is invited to take part in these services.

OWRC MAKES REPORT TO COUNTY SCHOOL BOARD

On the evening of September 30, 1971 the members of the Haliburton County Board of Education asked Messrs H. Browne, Hogarth and Bishop to investigate the area beyond the second crossing on the railway track for purposes of establishing a sewage plant. The following letter was received from the Ontario Water Resources Commission:

'The alternate site on the Cruickshank Farm was found to be suitable for many reasons. There was insufficient suitable acreage for lagooning and spraying. Clay lining of the lagoon area would be required since the soil was sand and gravel. There would not be sufficient land available for future expansion of the facility. Also, the cost of this alternative was excessive. Mr. Bishop has confirmed that the site on the school property adjacent to Drag River is the most suitable.

Thus our Property Branch of the Division of Project Development will be contacting you in the near future to negotiate a satisfactory property settlement with your Board. I trust we will receive your cooperation in this matter.'

The members of the Board of Education were very disappointed in this cursory examination of alternate sites for a sewage plant. They did not specify to the Water Resources Commission that it should be a lagooning system but rather asked that the Commission study the area down the railway tracks for a suitable sewage system. The members would like to know the reasons why a plant similar to that proposed for the Board's property could not be placed in this area.

The Haliburton County Board of Education has instructed the Secretary to write to the Ontario Water Resources Commission requesting a much more detailed report, with both engineering facts and financial figures to justify the conclusions they have already reached. The Board Members have not received the information they need in order to make a decision as to whether or not they should sell land for the location of a sewage plant adjacent to the schools that will house approximately 1,200 students.

HOCKEY —

TOM WEBSTER TRADED FOR RON STACKHOUSE

The Detroit Red Wings traded their number one goal scorer of 1970-71 Tom Webster (30 goals - 38 assists), to the California Golden Seals for Ron Stackhouse, the Seals number two defenceman, on Thursday, October 21st.

As far as the trade is concerned it really doesn't make too much sense, but looking at Ron's point of view, I'd have to say he got the better of the deal. The Detroit organization is one of the more prestigious National Hockey league franchises in the league. As far as the two teams are concerned I doubt very much weather either team gained or lost from the trade. There will have to be many more trades by both teams in the very near future if either hope to escape the cellar this season.

BASKETBALL —

MINDEN NO-STARS ACQUIRE HALIBURTON GYM

The Minden No-Stars basketball team has been given permission to use the Haliburton gymnasium each Tuesday evening between 7 and 9 p.m. for practices and Home games throughout the winter.

Players to date turning out for practices are Cliff Burke (playing coach), Jack Snell, Larry Kent, Dave Dollo, Bill Deverieux, Dave Trepanier, Warren Payne, John Pentney, Mike Hickey Larry Scott, and Leroy Nesbitt.

Anyone else who is interested in playing basketball this winter is welcome at the practices. If there is a transportation problem to Haliburton, contact the writer at 286-1318, or meet at the post office at 6:30 p.m. on Tuesdays.

BOWLING —

THIS COUNTRY IN THE MORNING

Peter Gzowski, that bright young man about Canadian journalism, and latterly, broadcasting, is the host of CBC Radio's new weekday magazine, This Country In The Morning. Plenty of talk, music, humor, pocket documentaries, reading, actuality, phone-outs and information galore will be the order of the day. Peter, who for two and a half years hosted Radio Free Friday, will get an assist from Helen Hutchinson and Bruno Gerussi. Live, topical, entertaining and informative — that's This Country In The Morning.

LOT FOR SALE BY

TENDERS

Sealed tenders plainly marked will be received by the undersigned up to 5 p.m., November 2nd., 1971. For part of Lot 8, Con. 5 in the Township of Stanhope, County of Haliburton.

A school house is situated on this approximately .82 acres of land which has 216 ft. frontage on a township road.

Further particulars maybe obtained at the Stanhope Office, RR 1 Haliburton.

Lowest or any tender not necessarily accepted.

Apply to G. Bain,
Clerk-Treasurer
Township of Stanhope
RR 1 Haliburton

DEER SEASON OPENS

The 1971 open-season for deer in the Lindsay Forest District will commence on Monday, November 1st in those parts of the District where a season has been declared.

Department staff wish all deer hunters the best of hunting and respectfully request co-operation in making this and future hunts safe and successful.

Again this year, the Department has been asked to promote the collection of deer and moose hides for the Indian Handicrafts Industry. Any hunter who delivers a hide to the nearest Lands and Forests Office in this District, will receive a hand warmer as a token of appreciation. Although there is no open season for moose this year in this District, residents who 'bag' a moose in northern districts where the season is open may also donate the hides.

Approximately 560 hides were collected in this District last year. This year other Districts including Tweed, Lake Simcoe and Parry Sound will be collecting hides also.

Attached is a diagrammatic illustration of another Department project in which hunter co-operation is needed. A deer 'agging' project was started in Hindon Township in Haliburton County last winter to determine just how far deer are travelling from their summer and fall range to their winter range. Hunters are therefore asked to check any deer they shoot to see if they have an ear tag. If so, this should be reported to the nearest Department office or officer with the date and location of kill.

by William J. Martin

Mr. Martin serves as special consultant to Avco Financial Services. All questions should be sent to him at P.O. Box 5875, London Ontario, Canada. Those containing a name and address will be answered in this column or by direct return mail. No names will be used in print.

Dear Mr. Martin:

I've been thinking about investing in the stock market on a small scale and it seems to me that mutual funds are a good buy. What's your opinion? C.T.

Dear C.T.

Mutual funds continue to be a very popular way for the average investor to get involved with the stock market. Today there are more than 6 million fund shareholders.

I think it is an excellent way for a new investor like yourself to get started. When you buy a fund's shares, you know, you become a proportionate owner of its portfolio which can range

from the stocks of only a few companies to hundreds.

Most funds offer a pretty diversified group of common stocks, although you can find many that specialize in a particular type of security.

To find out what a certain fund's policies are, just ask a broker for a prospectus. It's free and must be given to any prospective buyer.

You may have heard the terms, 'load' and 'no load' funds. A 'load' fund is one that charges a sales fee. For a small investor, it may be around 8 or 9 percent. The 'no load' funds

have no salesman or sales fee, but sell their share directly to the public. This means that you have to get in touch with them.

Some have minimum investment amounts which can range from just a few dollars to thousands of dollars.

There are hundreds of funds available, so take some time to shop around. Don't grab at the first one that's recommended to you.

DON'T BE A LOST HUNTER

Every Fall during the moose and deer hunting season the old problem of lost hunters comes into the news again. Usually it does not present too serious a problem and the lost members of the hunting party with no more drastic results than some ribbing from his fellow hunters. But occasionally, it is a matter of life and death with a costly full scale search and rescue operation involved.

The Ontario Safety League advises hunters to carry a topographical map of the area in which they are hunting and a compass and know how to use these important aids to travel in the wilderness. Always carry a small hand axe or sufficiently

ded to you. Decide what type of fund best fits your needs; such as, income funds, growth funds, performance funds, or balanced funds.

There are mutual fund magazines and publications available either from a broker's office or the library. Review them and then decide which gets your money.

sturdy hunting knife to gather wood for a fire, matches in a waterproof container and some emergency food such as chocolate bars which can be eaten without the use of utensils for preparation.

If you should become lost the first important rule is — Do Not Panic. Stay where you are and assess the situation. If there is a hill nearby which offers a view of the countryside climb it, it may straighten out your sense of direction. But don't rush, take it easy and again, do not panic. If night is near, the most sensible thing to do is find a spot to build shelter and fire and plan to spend the night. Clear away dry grass or leaves before starting your fire. This will help guide search parties to your location. Three shots in quick succession is a recognized distress signal. Repeat at half hour intervals.

RED CROSS SERVES YOU

THE EXPROPRIATIONS ACT 1968 - 69

NOTICE

OF EXPROPRIATION

Department of Transportation and Communications
Highway 519, Plan P-7047-43 District 10
Lot 14 Concession 9, Township of Snowdon
To Estate of Gladys Emma Robertson

TAKE NOTICE THAT

1. The lands shown on a plan registered in the Registry Office for Registry Division of Haliburton on the 27th day of September, 1971 as No. 56251 have been expropriated and are now vested in the expropriating authority.

2. The name and address of the expropriating authority for service and further communication is Mr. D. W. Baird, Manager, Administrative Services, P.O. Box 810, North Bay, Ontario.

4. Under the Act you may elect, by notice in writing served upon the expropriating authority within thirty days after the service of this notice upon you, to have the compensation to which you are entitled assessed,

(a) Where there has been an inquiry, as of the date of notice of hearing before the inquiry officer was served;

(b) as of the date of the registration of the plan; or

(c) as of the date on which you were served with this notice.

and where the election is not made within the prescribed time, you shall be deemed to have elected to have the compensation assessed as of the date of the registration of the plan.

5. For your convenience a copy of Election is furnished herewith.

6. Under the Act, the expropriating authority will be notifying you of the amount of compensation it is willing to pay you for your interest in the land.

7. If you are not satisfied with the offer you are entitled to have the compensation negotiated by the board of negotiation established under the Act by applying to the board at Second Floor, Shell Building, 505 University Avenue Toronto 101, Ontario. Attention: Mr. W. C. Dymond, Secretary, Telephone 365-2867 or to have the compensation determined by the Land Compensation Board if agreement with respect to compensation cannot be reached by negotiation.

LETTERS TO THE EDITOR

October 23, 1971. Bill and Hartley. It brought back happy memories of a wonderful friendship.

Toronto, Ont.

Dear 'Fenwick Finch'

I was surprised and pleased when Mrs. Bill McDonald read to me your paragraph about

When I was at the cottage in Carnarvon at Thanksgiving we were fortunate to locate copies for our two daughters and myself. Hartleys daughter Dr. Elizabeth Harrison has taken over our cottage She and her family of six are there almost every weekend the year round.

Both Hartley and I had beautiful gardens there, but they are all overgrown now. As long as Hartley was there no weed dared to show its nose above the soil. He and Bill had some lovely walks and drives around the country. Now his daughter and granddaughter are enjoying it. Thank You.

Florence Harrison

When Fish Get Mad

Fish, unlike fashion conscious women, aren't swayed by the latest in styles when it comes to choosing which artificial lure to strike. Why they pursue and attempt to eat the metal, plastic, hair and feather phonies thrown their way is subject to debate.

One assumption, commonly accepted as fact by many hopeful anglers, is that their offering closely resembles some form of natural food. In some cases, such as dry fly fishing with lures tied to look like their live counterparts, this is probably the truth.

But Red Fisher, the angling expert at Mercury outboards, wonders if this could possibly be true of the many multi-colored, star-spangled spoons and plugs which are used daily to catch fish... somewhere. And who ever saw a live six-inch-long purple worm sliding across the bottom of a lake?

Biologists know that fish can see, and well enough to distinguish colors and shapes. Why, then, do they strike lures that don't resemble any natural food they've ever known?

Anger is a logical answer to be considered. Studies of fish behavior toward natural prey show that seldom is there any display of the savagery so characteristic of the slashing strike a fish makes at an artificial lure.

There are exceptions to this, of course, say the lads at Mercury, but observations of predacious fish indicate they prefer to get food without drawing attention to themselves. Since most animals are subject to being eaten by another animal higher on the chain of life, this quiet approach to securing food makes sense.

Yet, when it comes to manufactured lures, fish lose their timidity and strike angrily at what obviously are not natural foods for them.

8. Notwithstanding paragraph 7, you may by agreement with the expropriating authority dispense with the negotiation procedures and refer the matter directly to the Land Compensation Board at 18 King Street East, Toronto, Ontario to have the compensation determined by arbitration.

9. For your information and convenience, certain provisions of the Act that apply to,

(a) negotiation and arbitration procedures; and

(b) the payment of your legal and appraisal costs, are set out as follows:

25. Where the statutory authority and the owner have not agreed upon the compensation payable under this Act and in the case of injurious affection, section 22 has been complied with, or, in the case of expropriation, section 25 has been complied with or the time for complying therewith has expired.

(a) the statutory authority or the owner may serve notice of negotiation upon the other of them and upon the board of negotiation stating that it or he, as the case may be, requires the compensation to be negotiated under section 27; or

(b) where the statutory authority and the owner have agreed to dispense with negotiation proceedings, the statutory authority or the owner may serve notice of arbitration upon the other of them and upon the Board to have the compensation determined by arbitration.

33. (1) Where the amount to which an owner is entitled upon an expropriation is determined by the Board and the amount awarded by the Board is 85 per cent, or more, of the amount offered by the statutory authority, the Board shall make an order directing the statutory authority to pay the reasonable legal, appraisal and other costs actually incurred by the owner for the purposes of determining the compensation payable.

(2) Where the amount to which an owner is entitled upon an expropriation is determined by the Board and the amount awarded by the Board is less than 85 per cent of the amount offered by the statutory authority, the Board may make such order for the payment of costs on a party and party basis as it considers appropriate.

Dated at North Bay this 4th day of October 1971.

Minister of

Transportation and Communications

Per: D. W. Baird, Manager,
Administrative Services.

GUILD OF FINE ARTS

HOLD EXECUTIVE MEETING

An executive meeting of the Haliburton Highlands Guild of Fine Arts, was held on Tuesday, October 5th, in the Gallery.

Mrs. Carole Finn, Convenor of the Pottery Group gave a report of her group. The boys of the occupation class of the High School have made tables, benches and shelves, all of which are a wonderful help to the group. They hope to have some of the High School students form a Pottery Group of their own.

Mrs. Finn also read a letter which had been sent to Mrs. Leon McKay of Dorset. A number of ladies in Dorset are interested in starting a Pottery Group, and Mrs. Finn, has offered to visit them to explain what is necessary in forming a group of this kind, and also has invited them to visit a session of the Haliburton Group.

Summer accommodation for the 1972 School of Fine Arts was a topic for discussion, and it is hoped that some arrangement may be made with a local lodge.

Mrs. Thilde Nevitt was granted an advance towards the Summer Exhibition, 1972. The insurance policy covering shows and exhibitions to be increased.

A report from the convenor of the Summer Theatre, Rick Poole was read and the following is a partial summary of its contents.

Attendance — adults 712, Students 457, Season tickets 468 for a total of 1,637. Average attendance was 234.

ABOUT THE TOWN

With Jeanne Sears

Another Provincial Election is over, the 29th to be exact and Bill Davis re-elected and our P.C. Glen Hodson in this riding. It is worthy to note that the percentage of voters casting a ballot in Victoria-Haliburton was higher than the Provincial percentage. There were two ladies elected in the province, wonder which of Margaret Scrivener of St. Davids and Margaret Birch Scarborough East will be selected as promised for a Woman Cabinet Member.

There is some controversy in the village as which night for Hallowe'en Saturday or Sunday. For those who don't already know it is Saturday night. But maybe we might get a few callers Sunday as well. We are hoping for good weather for the ghosts and goblins.

Winners of the first Mini Card Party last Thursday afternoon were Mae McArthur and Della Griffin for euchre and Isobel Bingham for cribbage.

There seem to be a good number of partridge in the area, we often hear shots fired in the woods; be careful where you aim, there might be another hunter near you. Also we heard there are numerous bears around close to some parts of the village — one has been seen in the back yard of Don Booth's house in McKayville. They will be hibernating as soon as colder weather moves in.

Miss Vicky Megas (a former teacher) and a friend from Toronto enjoyed a weekend here visiting old friends.

Sincere sympathy to the family and friends of the late Bert McNeil whose funeral was last week.

The U.C.W. had a very successful Rummage Sale at the Church Hall Friday evening and Saturday with fine used articles being bought.

This is the weekend coming up when we set the clock back an hour as Standard Time comes back for the winter. There was some discussion on when this happened but guess it is the last weekend in October.

Mr. and Mrs. Bongarde came up with Vern Graham from Toronto to spend the weekend at their cottage in the village while Vern visited with his parents Mr. and Mrs. James Graham.

Patients at the local hospital on Monday were Ken Moore, James Hodgkinson and Ronald Miscio.

At the L.O.B.A. Card Party at the Orange Hall, Monday night winners were for euchre Elaine McNabb, Phil Robinson, Dot Moore and Lyman Cox and lone hand Phil Robinson; for cribbage Marjorie Coulter and Duncan McLelland. After the games all enjoyed a social half hour and lunch served by the ladies.

Did you know that Baby Lotion is a wonderful aid to winter dry skin? Simply smooth it over your face before you go skating or skiing or spend any time outdoors in the cold blustery weather.

Everyone in the village has been taking advantage of the fine weather painting, cleaning up gardens and cleaning windows. The leaves have mostly all come down so that is one more job to do.

Cheerio until next week.

NIGHT CLASSES

**HALIBURTON HIGHLANDS
SECONDARY SCHOOL**

The Haliburton County Board of Education will conduct evening classes for adults in all or some of the following subjects provided a sufficient number of candidates apply and instructors are available. The Principal reserves the right to combine or cancel courses if an insufficient number apply or if a satisfactory teacher cannot be obtained.

- (a) Any course for which 15 people register provided a teacher is available.
- (b) 1. Music Appreciation 8 Sewing and Dress-making
2 Conversational French 9 Driver Education
3 Typing 10 Physical Fitness male or female
4 Auto Mechanics 11 Successful Investing in Stocks and Bonds
5 Civics
6 Electricity for beginners
7 Construction Drawing and Blueprint Reading

Individuals wishing to enroll in one of the preceding courses should complete the form below and return it to **Haliburton Highlands Secondary School, Box 507, Attention Night School, by November 8, 1971.**

Courses will be no less than 10 weeks in duration and will be held on evenings desirable to the majority registering for a class.

A fee of \$5.00 is charged for each course taken except Driver Education. The fee for Driver Education will be \$25.00. This fee will be collected on the first night of instruction. Fees shall be refunded if an insufficient number enroll for the course. There may be an additional fee charged in some courses if special texts or equipment is required.

Unless fifteen candidates register, a course cannot be offered. Individuals will be notified as courses become filled and available. The probable date of commencement of Night School courses will be November 15, 1971.

Please Complete This Form and

STILL SMOKING?

If you're still smoking, think about the next drag you take. Know where that hot smoke goes? Into your mouth, down your windpipe, into your bronchial tubes. The smoke is filled with sticky tars and harmful gases. The tars and gases irritate the cells lining your bronchial tubes. The smoke triggers an excessive secretion of mucus.

The trouble is you can't see all this happening. But eventually you can feel the effects. You develop a chronic cough, for instance. Smoking causes bronchitis, an inflammation of the bronchial tubes that hangs on or keeps coming back. Deep coughing and thick mucus make breathing difficult. The flow of air in and out of your lungs is slowed down. In fact, smoking just one cigarette immediately throws off the balance of blood and air in your lungs. The imbalance can be measured after a few puffs. Then there is emphysema. A group of American researchers taught ten dogs to inhale the smoke from 84 cigarettes a week, for 14 months. All the dogs developed various degrees of emphysema which was undistinguishable microscopically from emphysema. For people and dogs who suffer from this disease, which has no cure, each breath is a terrible struggle.

Why not kick the habit now? 'Me Quit Smoking Why?' and 'Me Quit Smoking How?' are free from your Haliburton Tuberculosis and Respiratory Disease Association, RR 1, Minden Phone 286-2669.

NOW HEAR THIS

by Lorna Rogers

A distinguished man of law and letters is this year's Massey Lecturer. He's Dr. J. A. Corry, outstanding authority on constitutional law and political process, whose subject for the six-part lectures is *The Power of Law*. The former principal of Queen's University and author of several major books on legal and political subjects brings wit, wisdom and simplicity to a key problem of our time: the growing disrespect for law in a revolutionary age. The topic of Dr. Corry's first lecture on Ideas, November 1, is *The Law as Reason and Custom*, dealing with the historical evolution of the Canadian legal system, both the common law of the English speaking provinces and the civil law of Quebec.

That intrepid broadcaster Allan Anderson has been crisscrossing the country again in search of poets. The results of his travels will be heard on *Anthology*, Oct. 30 and Nov. 6. Canadian poets talking about their work and reading a favor-

ite poem. Among those who'll be heard on the first program are Frank Scott, James Reaney, Irving Layton, Margaret Atwood and Al Purdy.

An appropriate offering for All Hallows Eve is *The Devil's Mother-in-Law* on Sunday Theatre, Oct. 31. Joseph Schull adapted it from a highly improbable but delightfully whimsical Irish fairy tale.

The Age of Aquarius, an intriguing analysis of the revived interest in the occult is heard on CBC Tuesday Night, Nov. 2. The program includes some Maritime ghost stories and readings of 15th century stories about satanism and witches.

Glenn Gould, consummate artist of the keyboard, is featured in a recital of variations by William Byrd, Bach, Beethoven, Webern and Bizet on *Musicscope*, Nov. 4.

Another supreme artist, in quite a different field of music is the incomparable Sarah Vaughan. The great jazz singer will be heard in concert at the CBC Vancouver Festival of Music 1971 on *The Entertainers* Nov. 5th.

TV STARS OF TODAY

Tommy Hunter stars on CBC-TV network Fridays, at 9 p.m. in color. For one hour of entertainment and fine country and western music it's the Tommy Hunter Show each Friday at 9 p.m. David Suzuki, world-renowned geneticist now associated with the University of British Columbia, is host of CBC-TV's popular *Science*, Mondays at 10:00 p.m., on the CBC-TV network.

IS YOUR INSURANCE COMPLICATED?

Not to us! We have a trained way of explaining in simple terms just where you stand on your general insurance. As local businessmen we understand your needs for protection of home, car, cottage and boats from fire and burglary, as well as special perils. Because of the rapid pace of business today it's difficult to keep up with new and better services. With this in mind, we have folders explaining many features and benefits on specific types of protection. Give us a call and we'll be

along to see you and uncomplimentate your General Insurance. You can depend on us, we are Independent Insurance Agents.

When Fish Get Mad

Fish, unlike fashion conscious women, aren't swayed by the latest in styles when it comes to choosing which artificial lure to strike. Why they pursue and attempt to eat the metal, plastic, hair and feather phonies thrown their way is subject to debate.

One assumption, commonly accepted as fact by many hopeful anglers, is that their offering closely resembles some form of natural food. In some cases, such as dry fly fishing with lures tied to look like their live counterparts, this is probably the truth.

But Red Fisher, the angling expert at Mercury outboards, wonders if this could possibly be true of the many multi-colored, star-spangled spoons and plugs which are used daily to catch fish... somewhere. And who ever saw a live six-inch-long purple worm sliding across the bottom of a lake?

Biologists know that fish can see, and well enough to distinguish colors and shapes. Why, then, do they strike food that don't resemble any food they've ever

is a logical answer to be considered. Studies of fish behavior toward natural prey show that seldom is there any display of the savagery so characteristic of the slashing strike a fish makes at an artificial lure.

There are exceptions to this, of course, say the lads at Mercury, but observations of predacious fish indicate they prefer to get food without drawing attention to themselves. Since most animals are subject to being eaten by another animal higher on the chain of life, this quiet approach to securing food makes sense.

Yet, when it comes to manufactured lures, fish lose their timidity and strike angrily at what obviously are not natural foods for them.

Ariens SNO-THROS are a neighborhood affair
